## **CE marking for the restriction of hazardous substances in electrical appliances (RoHS Directive)**

EU Directives 2011/65 / EU and 2015/863 restrict the use of the 10 substances listed below to the manufacture of specified types of electrical equipment.

We the PS-europe & Co k.s. hereby confirm the RoHS compliance of all our products listed below

Definition RoHS compliant:

- The product does not contain any of the prohibited substances above the limits, as required by the Directive.
- Components can be processed at higher temperatures than required in the lead-free soldering process.

The prohibited substances and the maximum permissible limits per homogeneous material are:

<b>Substanz</b>	<b>Grenzwert</b>
Blei	0.1%
Quecksilber	0.1%
Sechswertiges Chrom	0.1%
Polybromiertes Biphenyl (PBB)	0.1%
Polybromiertes Diphenylether (PBDE)	0.1%
Cadmium	0.01%
DEHP(Bis (2-Ethylhexyl) Phalat))	0.1%
BBP(Benzylbutylphthalat)	0.1%
DBP (Dibutylphthalat)	0.1%
DIBP (Diisobutylphthalat)	0.1%

PS-europe k.s, in order to comply with this statement, have taken all the necessary steps to check the compliance of the components necessary for the manufacture of our products. This declaration is valid for product deliveries from the day of issue.
